

# GREEN SERIES CHARGERS

The GREEN Series of energy efficient, single and three-phase industrial battery chargers supports a wide range of applications from industrial lift trucks and floor care equipment, to ground support equipment and go-karts. FSIP is the exclusive distributor of GREEN chargers in North America with the ability to also remanufacture the chargers and modules.

## GREEN2

- 120VAC
- 24V, 36V or 48V
