

The **TORO720W** is a high-frequency, high-efficiency, sealed on/off board charger. The charger will work with lead-acid and lithium batteries. It provides 720 W of power and has a protection rating of IP66.

Features/Benefits

- Includes DC cables
- Battery temperature sensor
- CAN bus communication (lithium ready)
- Use phone APP to monitor:
 - Charger programming
 - Battery troubleshooting
 - Charge cycle data
- High-efficiency (greater than 92%)
- Reverse polarity and charge time out protection

Model	AC Input Voltage	DC Output Voltage	DC Output Current	DC Output Power Range
TORO720W		Dim.: 10.51" x 7.44" x 3.18" Wt.: 9.039 lbs.		
24-TORO720-2430	Universal 100–240 VAC	24 V	30 A	720 W
24-TORO720-4815	Universal 100–240 VAC	48 V	15 A	720 W

Multicolor LED indicator for faults and charging status

Bluetooth APP (Android, Apple)

- Set charger parameters
- Select charging curves (11 available profiles)
- Download charging cycles (85 cycles available)
- Show graphs of the charging phases
- Detailed reports
