

The **TORO1200W** is a high-frequency, onboard battery charger. This charger works with lead-acid batteries. It provides 1200 W of power and has a protection rating of IP65.

Features/Benefits

- Thermal protection
- High-frequency (up to 92%)
- LED charging status & fault indicator
- Optional interlock connections included
- Active cooling via integrated fan
- Rugged IP65 casing to stand up to tough industrial environments
- Available with or without DC termination
- Charging curves for lead-acid batteries (AGM & Gel)
- Ideal for 500–600Ah industrial batteries — perfect for Class III pallet trucks and Class VI burden carriers

Model	AC Input Voltage	DC Output Voltage	DC Output Current	DC Output Power Range
TORO1200W Dim.: 11.02" x 4.13" x 8.98" Wt.: 12.13 lbs.				
24-TORO1200-2450	Universal 100-240 VAC	24 V	50 A	1200 W
24-TORO1200-3630	Universal 100-240 VAC	36 V	30 A	1200 W
24-TORO1200-4825	Universal 100-240 VAC	48 V	25 A	1200 W

Multicolor LED indicator for faults and charging status

Includes an optional external battery status LED indicator
