

Reduce your charger's downtime at a much lower price with our remanufactured charger modules!

FSIP offers a variety of remanufactured top selling charger module brands. Our remanufactured charger modules are analyzed by certified electronic technicians. All failed, compromised, and stressed components are replaced and upgraded to the latest specifications.

All modules are rigorously quality tested. FSIP maintains an ISO 9001:2015 certification.

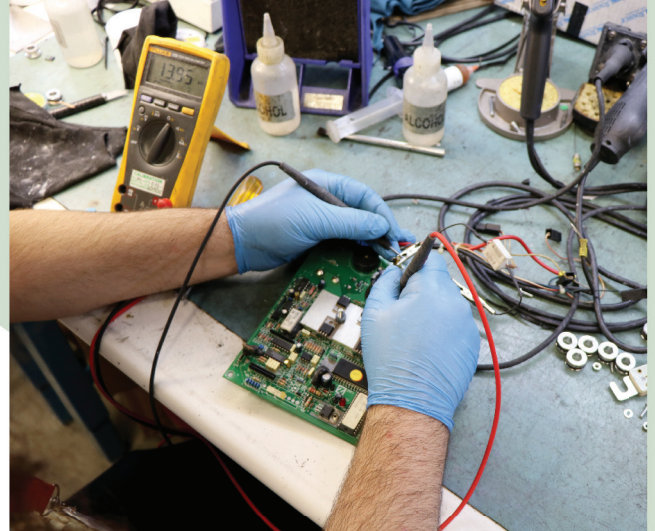

Features/Benefits

- Cost savings
- Simple integration
- Reduced downtime
- Reduced maintenance cost
- Remanufacture and rebuilt exchange programs available

Common Charger Modules

NAME	PART NUMBER
